

Aluminium Extension Ladder 2-part

100070

- Built with swaged firefighting rungs (34 mm in diameter) which are milled into the beams
- Equipped with side mounted slide guides which reduce friction
- for smooth extension with minimal pull-out force needed
- New ladder slide guides eliminate the need for guide brackets
- New rope brake: immediately prevents the ladder from collapsing, as well as aids the ladder in folding smoothly
- New design allows for more stability with less weight
- Suitable for a maximum load of 2 persons

Technical specifications

Model No.	Number of rungs	Lenght		Weight Approx.
		Folded	Extended	
FO-615	2x15	4,70 m	8,0 m	30 kg
