

Aluminium Extension Ladder 3-part

100069

- Built with swaged firefighting rungs (34 mm in diameter) which are securely milled into the beams
- Equipped with side mounted slide guides which reduce friction
- for smooth extension with minimal pull-out force needed
- New ladder slide guides eliminate the need for guide brackets
- New rope brake design: immediately prevents the ladder from collapsing, as well as aids the ladder in folding smoothly
- New design allows for more stability with less weight
- Includes new lightweight stabiliser bar
- Suitable for a maximum load of 3 persons

Technical specifications

Model No.	Number of rungs	Lenght		Weight Approx.
		Folded	Extended
