

Color Tile 3D, Fire Ribbon

3010546

Modern version of fire ribbons in the form of 3D tiles, with the Croatian flag and inscription according to the customer's wishes.

Fire ribbons have always been a part of firefighting ceremonies and anniversaries. Fire ribbons are used to print the inscriptions of donors or sponsors who have contributed to the work of the fire brigade, or in the organization of the fire anniversary.

In our offer you can find a completely new design of fire ribbons in the form of 3D tiles. The tile has a background in the shape of the Croatian flag and the inscription is additionally printed. All together it is possible to order in a frame with glass, which is made depending on the quantity of ordered tiles (ribbons).

Description:

- Tile with a base in the shape of the Croatian flag
- Inscription according to the customer's wishes
- Glass frame (ordered separately, size depends on the amount of tiles)
- Catalog number of tiles: 1508
- Purpose: Souvenir for fire anniversaries
