Dividing Breeching C/2D, Ball Valves

1033231

Made of light-alloy, provided with two screwdown type valves on the outlets. Two outlets with Storz-D couplings. Inlet comes with Storz-C coupling.

Dividers are used for distributing the extinguishing medium from one feed line over several hose lines. Each hose line can be shut-off individually by means of a stop valve. The stop valve of the dividers must be according to DIN 14365 easily operated in the usual flow direction. Nominal bore of dividers are available in different diameters to allow the variation of sizes for fire hose used by Firefighters.

Technical specifications

- Inlet: ∅52=Storz C
- Outlet: 2x∅25=Storz D
- Handle: Ball Valves
- Dimensions: 305x230x245 mm
- Weight: approx. 4,5 kg
