

## Dönges Automatic spout Smart-Spout, 186 mm

Kat. br. 200908

The automatic spout detects when the tank is full and stops the fuel flow automatically. Half-full tanks or the dangerous spilling of highly flammable fuel are now a thing of the past. The Smart-Spout fits on the Dönges sheet steel petrol canisters with 5 l and 10 l volume.

### Features:

- Spill-free filling, fuel is only released after it has been placed on the tank
- Stops automatically when the tank is full
- Suitable for all 5 L and 10 L steel petrol canisters
- With air hole

### Technical specifications

- Length: 186 mm
- Material: metal / plastic
