

Dönges passenger airbag safety system

Kat. br: 218430

Protective cover protects firefighters from the impact of the passenger's airbag, during technical intervention in a traffic accident.

The use of its five tensioning straps helps to quickly assemble the system (in approx. one minute) both with the roof removed and with an intact vehicle.

Supplied in a sturdy plastic case:

- Dimension L x W x H: 395 x 295 x 106 mm
- Weight: 4.232 g
