

Dönges Shovel cover for wildfires

Kat. br. 201524

With the shovel cover, a commercially available shovel turns into a full-fledged wildfire beater. The hard-wearing and flame retardant material guarantees a long service life. The shovel cover can be rolled up or folded and easily stored in the smallest of spaces when not in use.

Features:

- Flame-retardant material
- Simply pulled over a standard shovel and secured with Velcro
- Extremely space-saving to store
- Shovel not included in delivery
- Note: due to the material, the shovel may only come into contact with the burning material/flames for a short time (contact heat)
- Weight: 500 g
- Material: PVC/PES
