

Fire extinguisher F9P, foam

525007H

Fire extinguisher with 9 liter AFFF foam tank, under constant pressure.

It can be used for extinguishing class A and B fires. Application: residential buildings, hotels, wood, textile and paper industry, warehouses, shops.

Mode of action:

The moment the fire is extinguished, a layer of foam is created that effectively prevents evaporation while cooling. In this way, the risk of re-igniting the fire is reduced.
