

Fire Hose 38 mm with Brass couplings "Professional - Rekord"

1009465

Top quality fire hose intended for units with a large number of interventions. The newly designed weaving process provides this hose additional abrasion resistance and high flexibility. Resistant to snow, frost, rot, pests, UV, Ozone, without the effects of climate change, whether cold or hot.

Weaving:

- High tenacity multifilament polyester yarn
- Because of a special developed weaving very abrasion resistant

Lining:

- High-end EPDM rubber-lining, flexible, smooth, ageing- and ozone resistant, manufactured in a special vulcanizing process

Technical specifications
