

Fire Hose 52 mm with couplings "Herkules"

1009642

The high performance, top quality fire hose for Fire brigades, Refineries, Airports and Docks, Industrial plants, combining resistance to weather, UV-light/ozone, heat, chemicals, oils and abrasion.

Construction:

- All-in-one extruded fire hose embedding the high tenacity Polyester weaving into a Nitrile/PVC compound

Major advantage:

- Herkules provides the best rubber-to-textile
- Herkules is unaffected by low/high temperatures (-20°C / +100 °C) and seawater
- No drying required
- Mildew resistant, rot and vermin proof, flexible and very easy to maintain

Standard hose length: 15 m.

Technical specifications

Diameter			Weight gr/m	Pressure (Bar)			Max.length (m)
Inch	mm	F.M.		Work	Test	Burst	
1 ½	38	H	360	20	40	60	60
1 ¾	45	/	400	20	40	60	60
2	52	C	470	16	32	50	60
2 ½	63	/	620	16	32	50	60
2 ¾	70	/	680	16	32	50	60
3	75	B	750	16	32	50	60
4	102	A	1060	13	26	40	60

All dimensions of hose are available with cast or forged aluminum couplings banded with wire as well as without the couplings, max. 60m in length.
