

Fire Wildland Suit Texport Fire Recon

16833G

The FIRE RECON WILDLAND family offers the current highest technical standard for fighting forest and vegetation fires and sets new standards in terms of comfort and fit.

The 1-layer structure ensures excellent breathability. This is of great importance in order to keep moisture such as sweat away from the body in the best possible way and thus maintain the wearer's performance. This in turn reduces the risk of the body overheating. Being able to combine jacket and trousers into a closed system prevents rising heat from entering.

The width adjustment of the trouser legs and cuffs also takes this into account and thus offers the wearer optimal protection against forest and vegetation fires. The Fire Recon is also available in a THL version with increased visibility.

Specifications

- Certified according to: EN 1149-5:2018 / EN ISO 15384:2020 / EN ISO 11612:2015 A1 A2 B1 C1
- Type: Standard
- Composition: 1-layered
- Out layer: TFX Aramid/Viscose
- Color: Black Blue/Red
- Size: XS – 4XL

Technical specifications

- Stand-up collar with hanger
- Radio pocket: Length adjustable, with side zipper
- Name tag: Personal identification
- Flashlight loop: Width adjustable
- RFID: Electronic identification system
- Inside pockets: Left and right
- Front pockets: Inserted
- Cuff: Width adjustable
- Upper arm pocket: External, left
- Short-cut jacket: Freedom of movement
- Elbow reinforcement: Abrasion protection
- Ergonomically preshaped sleeves: Increased movability

Inovative outer materials

TFX Aramid/Viscose

The TFX outer fabric is a flame retardant, durable and lightweight fabric developed exclusively for Texport®. TFX offers very good lightfastness, very good abrasion resistance, it's lightweight but almost as strong and has one particularly pleasant wearing comfort as well as keeps its colour after many washes.

TEXPORT® Triple Fabric®

The TEXPORT® Triple Fabric® is a textile reflective stripe that is made from fabric and therefore is extremely breathable and more durable. The reflective, silverstripe material composition, patented by 3M*, adheres very well to the structure of the soft fabric. In addition, the TEXPORT® Triple Fabric® is abraded less severely through wear and washing.
