

## Firefighter Backpack Dönges

Kat. br. 201737

Robust and spacious - 40 liter capacity - the new Dönges fire brigade backpack with many practical functions. Integrated, softly padded laptop compartment with Velcro strap offers space for a laptop up to 15.6 inches in size. Bright interior brings light into the dark.

Practical front pocket as a cooling compartment - can be filled with up to 4 x 0.5 L cans. Small parts compartment with extra soft fabric - optimal protection for cell phones, sunglasses, etc. from scratches or other damage. Order and structure are the highest priority when in use - pens and small parts compartment with mesh + another zipped inside pocket in the small parts compartment.

Key ring hook in the small parts compartment. Comfortable to carry thanks to individually adjustable, padded shoulder straps and hip belt. Including cable outlet for headphones or charging cable on the side of the backpack. Reflective strips ensure a high level of safety. Outside with two additional drink compartments made of padded mesh fabric - prevents the compartment from tearing easily.

On the front: strap for hanging larger items, e.g. fireman's helmet, yoga mat, etc. The stylish backpack is light and comfortable to wear - suitable as a companion for travel, school, everyday and outdoor activities.
