

Firefighter helmet Fire MP2

1022449

A new safety helmet that offers excellent protection, comfort and various possibilities of use. The Euro slots allow the use of different accessories like visors and hearing protection.

With a wide range of accessories, the helmet adapts to your needs and provides the highest level of protection even in the most demanding conditions. Advanced design and the highest quality materials ensures a high level of safety and exceptional comfort.

Materials

- Shell: Thermoplastic
- Eye protector: impact-resistant and flame-retardant polycarbonate with anti-fog and anti-scratch coating
- Neck protectors: aluminized flame retardant fabric, meta aramid fabric or flame-retardant cotton
- Straps and linings: flame-retardant materials that do not cause skin irritation
- Air flow: Adjustable air openings for optimal ventilation
- Euro attachments: Euro slots for attaching different accessories
- Excellent protection properties at low temperatures (-30°C)
- Resistance to impact: High resistance to mechanical impacts
- Color variety: The helmet is available in a variety of colours. Optionally available with high-quality, fire-retardant, and UV-resistant coating in any other RAL scale colour (with MOQ).

Perfect in every detail

With a wide range of accessories, the helmet adapts to your needs and provides the highest level of protection even in the most demanding conditions. Advanced design and the highest quality materials ensures a high level of safety and exceptional comfort.

- Torch holders: Universal adapter for left- or right-side attachment for perfectly positioned lighting in every situation. Available for different torch models.
- Photoluminescent color: For better visibility and orientation in the dark. The luminous particles shine for hours.
- Neck protection: We offer various types of neck protection – aluminized flame retardant fabric, meta aramid fabric or flame-retardant cotton – all with a quick and secure attachment system.
- Eye protection: Integrated flip-down eye protector for eye safety.
- Earmuffs: Passive hearing protection that will reduce noise and protect your ears in the loudest environments. Comfortable and resistant.
- Goggles: Double-lens technology with anti-scratch and anti-fog treatment to protect your eyes from smoke and dust. Ideal for forest firefighting.
- Chin protector: Light and comfortable, provides extra protection for the chin.

Technical specifications
