

## Firefighter Work Sweater

1010018

Working sweater for Firefighters, used as an addition to firefighting working clothes. Excellent protection against cold.

This work sweater will complete your firefighting work uniform, as a good addition and protection in cold weather conditions. On the left side of the chest there is a machine-embroidered fire emblem, and on the shoulders there are buttons for fire markings / titles. Ideal for wearing in colder weather under the jacket of a firefighter's work suit, intervention suit or coveralls.

Longer collar that protects your neck from the effects of the cold, zip fastening (from the middle of the chest to the neck).
