

Firefighter Working Shoes "Miami"

2002002

High quality work shoes for firefighters and civil protection. The upper of the shoe is made of hydrophobic black first class leather and the comfortable lining is made of natural cowhide. The quality of "Miami" leather shoes has been recognized by many Fire departments and Volunteer Fire brigades, and they offer you the best price-quality ratio when it comes to fire shoes.

Firefighting work shoes "Miami" are a Croatian product and comply with the standard / norm: CE EN ISO 20347: 2012. This standard specifies the basic and additional (optional) requirements for professional footwear that are not exposed to mechanical risks (impact or compression).

Characteristics:

- Color: Black
