

High-pressure Compressor Junior II

100117

- The world's best seller: With more than 100,000 units around the globe.
- BAUER's most compact mobile compressor: With compact dimensions and advanced technology.
- Extensive range of applications: For sport divers, shipping, respiratory applications, paintball, sport shooting and many more.
- Really easy to transport: Outstandingly light in weight and easy to handle.
- Durability, reliability, versatility in application and compact flexibility have made the JUNIOR II a global classic and genuine best seller with more than 100,000 units sold the world over.
- Dimensions on a very small scale and sophisticated technology make our most compact mobile breathing air compressor ideal for shipping, as a diving compressor, in respiratory applications, and as a compressor for paintball and sport shooting.
- In short, it is a must for anyone looking for absolutely clean and safe breathing air for use in mobile applications.
- This quiet and compact unit can be carried easily by a single person and will fit in almost any car boot.
