

## Hoses - Hytrans Fire System

100486

The Hytrans® mobile water supply system, long-lasting tests have resulted in a hose specification especially suited for Hytrans® systems.

### Characteristics such as:

- Lowest possible stretching. (Elongation) To prevent it to be a large obstacle
- Short bend radius very important in municipal or industrial areas
- The burst pressures of the Hytrans® hose is at a very safe rate in relation to the required service pressures
- Hose and couplings are developed to deploy the hose at high speed (up to 40 km/h)

### Hytrans® Armtex DCH Hose available in following sizes:

- Diameter: 152 mm (6")
- Diameter: 204 mm (8")
- Diameter: 254 mm (10")
- Diameter: 308 mm (12")
