

## Hydrant Standpipe B/2C

1033097

Hydrant Standpipe B/2C is used for pumping water from underground hydrant. There are two 2" outlets at the exits for connecting fire hoses to the hydrant standpipe. At the entrance is a connection piece 3" (DN 80) that is compatible with the DN 80 underground hydrant.

### Technical specifications

#### Materials:

- Cast in aluminum alloy AK 11 (AlSi 11)
- Brass MO 58
- Gasket - Rubber

Technical characteristics	
Article symbol	SH-75
Working pressure	10 bar
Weight	7,65 kg
