

## Hytrans HydroSub® 1400

100478

The HFS® HydroSub® 1400 is a diesel-hydraulic power pack-pump unit powered by a 1400 KW marine grade diesel engine producing a pump capacity of 45000 lpm @ 12 bar. Featuring access to any open water source at a combined distance of 60 meters horizontally and/or 10-15 meters vertically.

### Capacity

- Submersible pump: 3 X 15.000 = 4.5000 ltr./min (12.000 gpm) at 2,5 bar.(35 psi)
- Main-boost pump: 45.000 ltr (12.000 gpm) at 12 bar (175 psi)
