

Jacket Windstopper Softshell Rips - Top

2001722

Windproof under jacket/jacket, made of three-layer laminate. It closes with a zipper.

Can be worn alone or as a jacket under a waterproof jacket. There are two notched pockets on the front under the satl at chest level, which are closed with a zipper. Above them on both sides is a velcro strip measuring 12x2 cm for function marks and names and surnames. There is a small pocket sewn on the left sleeve that closes with a zipper.

There are two lower vertical pockets in the front seam that close with a zipper. There are shoulder straps that close with a button. A reflective silver piping is sewn into the side seam and the satle seam on the back.

Key Features:

- three-layer fabrics in 100% polyester rips-top connection
- Highly efficient PU LEVEL X-20 or PTFE LEVEL XR-10 membrane
- Reverse 100% polyester (fleece), surface weight 250g / m².
- width adjustment on the length of the jacket with elastic rubber and stoppers
- Velcro width adjustment
- Application: firefighters, civil protection and more
- Catalog number: V7744025001
