

Leak Sealing System HVSP 250 U

100208

Vacuum leak sealing plate with pressure gauge, vacuum pump and drain hose in steel storage / carrying case.
Delivered completely mounted and ready for use.

Rapid leak sealing:

- Reduces risk of fire or explosions
- Prevents or limits environmental damage

Emergency drainage system:

- After sealing fluid can be stored in other container

Special rubber compound:

- High chemical resistance

Stainless steel pressure gauge:

- No rust

Technical specifications

Details		
Articlenumber	360.302.011	
Basic specifications		
model	HVSP 250 U	
max. working pressure	6 / 0.6 (bar/Mpa)	87 psi
General specifications		
air consumption	300 (l/min)	
Dimensions, weight and temperature		
weight, ready for use	5.3 kg	11.7 lb
length sealing pad	600 mm	23.6 in
width sealing pad	390 mm	15.4 in
thickness pad	35 mm	1.4 in
length sealing compartment	250 mm	9.8 in

width sealing compartment	50 mm	2 in
