

Madison low cut safety shoes, with steel toe cap

2595-S1

Madison low cut safety shoes provide protection and comfort for your feet in the workplace. The materials they are made of and the way they are designed allow you to step safely and comfortably at all time.

Madison safety work shoes are a model with a steel protective cap for the toes and with outsole resistant to fuel oils, antistatic and antislip. They can be used for activities where there is a risk of falling lighter objects, debris or tools. The purpose of these shoes is to provide comfort and protection for your feet from potential dangers that are present in different working conditions.
