

Mobile Radio Station Motorola DM4400e

100298

The market leading DM4400e radio is by far Motorola's most popular mobile digital radio available. Great coverage performance and extremely loud reception from the front mounted speaker makes this radio ideal for DIN (recess) installations. Very popular for waste, agriculture and public transport applications.

Product Description

The Motorola DM4400e is one of the latest mobiles in the Mototrbo catalogue. This new e range mobile promises increased coverage over its predecessor (DM4400), as well as other features including text messaging, work order ticketing and data capabilities to support advanced applications.

With this dynamic evolution of MOTOTRBO digital two-way radios, you're better connected, safer and more productive. The DM4000e Series is designed for the skilled professional who refuses to compromise. With high performance integrated voice and data, and advanced features for efficient operation, these next-generation radios deliver complete connectivity to your organisation.

Connected:

The MOTOTRBO DM4000e Series is a family of ETSI DMR Standards compliant digital radios that delivers operation critical voice and data communications. Bluetooth® audio lets you talk without wires, integrated Wi-Fi® enables remote software updates, and indoor and outdoor location-tracking capabilities give you total visibility of your resources. With support for trunking as well as legacy analogue technology, you can keep your organisation connected as it grows.

What's new in these next generation radios:

- Bluetooth 4.0
- Indoor location tracking
- Multi-constellation GNSS for increased location accuracy
- Integrated Wi-Fi
- Over-the-air software updates
