Portable Radio Station Kenwood TK-2360E

TK-2360E

Smart things come in slim packages - as ably demonstrated by KENWOOD's new TK-2360/3360 radios, which offer top-notch performance and a rich feature set - all in a conveniently compact design. Easy to use, yet tough where it counts: IP54/55, MIL-STD weatherproofing means they never complain about the weather.

Slim, Compact and Lightweight

Smaller, thinner and lighter - these radios are ideal for hooking on a belt or even slipping into a coat pocket. KENWOOD engineering advances have resulted in a compact, ergonomic design that is easy to grip and operate, even with gloved hands.

Robust and Water Resistant

The tough TK-2360/3360 has passed the demanding IP54/55 dust and water intrusion tests, even with the KMC-45 optional speaker microphone attached (locking bracket required). It also meets or exceeds 11 stringent MIL-STD 810 C/D/E/F environmental standards, including "blowing rain".

Clear and Crisp Enhanced Audio

As an experienced audio specialist, KENWOOD can draw on decades of expertise at every step: component selection, construction, optimization, evaluation and analysis. The resulting audio performance, specially engineered for transceivers, is undeniably clearer and crisper. Just listen to the difference.

UHF Wide Band Coverage

Offering extensive frequency coverage - 70MHz for UHF - the TK-2360/3360 can accommodate a wide range of applications, making it an ideal choice for rental businesses.

16 Channels with 4/8/12 - Channel Stopper

The TK-2360/3360 offers ample capacity for multiple channels or radio systems. And there is now a colorcoded channel stopper to enhance operability when using only a few channels; easy to set up, this feature limits the maximum number of channels to 4, 8 or 12.

UHF 5W Output Power

Output is 5W for both VHF and UHF.

Programmable Function Keys with Hold

The side-mounted PF keys can be programmed for enhanced operating ease, and the new Hold feature (adjustable) doubles the number of functions at your fingertips.

Programmable Voice Inversion Scramble*

The built-in programmable voice inversion scrambler provides basic protection against casual eavesdropping.
*This function cannot be used in certain countries. Please contact your KENWOOD dealer for further information.

Signaling

QT / DQT / DTMF
FleetSync® PTT ID, SelCall
2-tone (Encode / Decode)
Built-in MDC-1200 Signaling

Emergency Function

For hazardous / hostile duty environments, the AUX key can be programmed for Emergency use to transmit an alert to a predetermined person or group using DTMF, FleetSync® or MDC-1200 signaling.

Lone Woker

This ingenious feature provides an extra layer of security for individuals who work in remote or hazardous areas. If there is a long lapse (programmable), it will sound an alert. And if the user does not respond to the alert, the TK-2360/3360 will place an emergency call to a predetermined person or group.

Radio Stun

The radio stun function can disable a lost or stolen radio over the air, thus eliminating security risks.

Voice Announcement

The rotary and key controls on the TK-2360/3360 have been designed to provide the user with voiceannouncement of radio status or mode - convenient when operated undercover or in a pocket. Several languages are available.

Technical specifications

Other Features:

- 3 new optional batteries (KNB-55L / 56N / 57L)
- 4-color LEDs (blue / red / green / orange)
- VOX / compander / scrambler setting by channel
- VOX ready
- Time out timer
- Priority scan
- Password protection
- Wide / Narrow per channel
- Companded audio per channel
- Talk around
- BCL (busy channel lockout)

- Key lock

General Features:

- Slim, Compact & Lightweight
- Robust & Water-Resistant
- Clear and Crisp, Enhanced Audio
- UHF Wide Band Coverage
- 16 Channels with 4/8/12-Channel Stopper
- UHF 5W Output Power
- Programmable Function Keys with Hold
- Programmable Voice Inversion Scrambler*
- Signaling
- Eergency Function
- Lone Woker
- Radio Stun
- Voice Announcement
- 3 New Optional Batteries (KNB-55L / 56N / 57L)
- 4-color LEDs (blue / red / green / orange)
- VOX / Compander / Scrambler Setting by Channel
- VOX Ready
- Time out Timer
- Priority Scan
- Password Protection
- Wide / Narrow per Channel
- Companded Audio per Channel
- Talk Around
- BCL (busy channel lockout)
- Key Lock
