

Power Cable with Wind-Up Reel 230 V/400 V, 16 A DIN 14680, 50 m

100367

A high quality 50 m rubber cable is wound on a sturdy PVC ring with wind-up reel. The rubber cable provides greater flexibility and abrasion resistance, while the metal base provides stability. The cable is suitable for use in various industries and is also used by many fire brigades in interventions.

- High level of comfort thanks to ergonomic handles and perfectly balanced frame
- Unique cable routing prevents cable entanglement
- The special frame design prevents the cable from sliding behind the drum
- Drum brake inside
- Pressed tubular shaft for better sliding properties
