Reduction Coupling 110/75 mm (A/B)

1033109

The Reduction Couplings are applied for connections of delivery hoses with different inside diameters or to connect the hoses to the equipment with adapter size other than hose couplings.

The Storz Couplings can be easily and simple connected with the Reduction Coupling in one single move. They can be tightened with a coupling wrench. Types of materials for firefighting couplings: aluminium alloy, stainless steel and brass.

Technical specifications

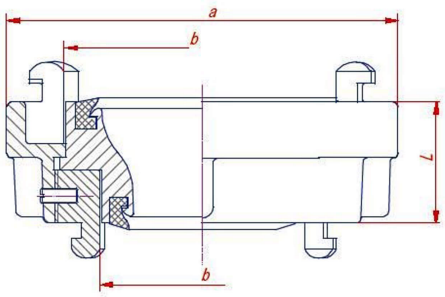

Materials:

- Clamp fittings, centre section cast in aluminum alloy AK 11 (AlSi 11)
- Gaskets rubber
- Locking pin steel galvanized

Size	a(mm)	b(mm)	b_1(mm)	L(mm)	Seal ability (Bar)	Bursting Strenght (Bar)	Weight (kg)
