

SCBA Holders Solo Rescue

2005470-2

The SCBA Holders makes it possible to place and decontaminate two complete SCBAs, including face masks, in the Solo Rescue Decon Washer at the same time. This gives you a total capacity of cleaning and decontaminating up to 14 SCBAs an hour.

The holders are placed over the centre bracket of the Heavy Duty Basket and they can be combined with the Gear Holder and the Small Parts Holder which will give great flexibility in decontamination various PPE during the same wash cycle.
