

Sling for setting up a belay or an anchor Petzl Anneau C40A

1011666

The Petzl Anneau C40A sling is made of polyester. It is designed for setting up a belay or an anchor, or for extending an anchor point. This sling is designed for fire interventions that require work at height, industry or mountain climbing.

Main features:

- Available in different sizes: C40A 60 cm, C40A 80 cm, C40A 120 cm, C40A 150 cm, C40A 60N cm, C40A 80N cm, C40A 120N cm.
- Load capacity: up to 22 kN
- Material: polyester
- Certificates (standards): EN 566, EN 795 B

Polyester sling allows the user to set a safe and reliable belay point (anchor point). The sling makes it possible to extend the anchor point by connecting it with other slings with the help of a carabiner. During rescue interventions from heights, firefighters make security points for their safety work.

Everyone who participates in the mission of rescuing victims, connect to safe point with their personal firefighter work belt. This protects firefighters and rescuers from a possible fall from a height.
