

Spreading Tip Set STS 02

150.006.475

Extreme Grip Spreader Tips with pointed teeth profile at both sides for superior grip during spreading and crushing.

Taller middle row of teeth on both sides

- For immediate grip.

Teeth on the outside alternately point in the opposite direction

- To provide a superior grip on the material over the full spreading range.

Interlocking profile on the inside

- This reduces the tips' insertion dimensions.
