

Submersible Pump for sewage water Pedrollo VXm 15/50

1007254

Suitable for use in domestic, civil and industrial applications where the water, such as groundwater, surface water and sewage water, contains suspended solids up to Ø 50 mm. They are suitable for use in applications such as for draining flooded areas such as cellars, underground car parks, car washes, for emptying cesspools and for sewage disposal.

These pumps distinguish themselves for their reliability, which can be best appreciated under automatic operating conditions in fixed installations.
