

## Suction Brass Coupling, for firefighting suction hoses

1003400

The Storz Fire Couplings have the same head structure, whether male or female. Therefore, two joints of equal diameter can be easily joined. The connection method offered by Storz couplings is therefore quick and easy.

Suction Couplings are used for interconnection of fire suction hoses, PVC suction hoses, connection with fire pumps, suction baskets ...

Suction Couplings are used in fire departments, industry, agriculture, shipping, military and civil protection. Material types: aluminum, forged and brass.
