

Suction Coupling 110 mm "A" thread 100 mm

1033103

The Storz Fire Couplings have the same head structure, whether male or female. Therefore, two joints of equal diameter can be easily joined. The connection method offered by Storz couplings is therefore quick and easy.

Suction Couplings are used for interconnection of fire suction hoses, PVC suction hoses, connection with fire pumps, suction baskets ...

Suction Couplings are used in fire departments, industry, agriculture, shipping, military and civil protection. Material types: aluminium alloy, stainless steel and brass.

Technical specifications

Materials:

- Clamp fitting, lid cast in aluminum alloy AK 11 (AlSi 11)
- Gasket rubber, circlip, S-hook,
- Chain steel - galvanized.

Nominal size	a(mm)	b(mm)	L(mm)	D(mm)	d(mm)	Min. Working pressure (Bar)	Bursting Strenght (Bar)	Weight (kg)
