

## Surface Hydrant Cabinet OH-N, Stainless Steel

1008500

The OH-N hydrant cabinet is located near the surface hydrant and is used to store equipment, which can be connected to the surface hydrant for fire fighting purposes. The hydrant cabinet for surface hydrant type OH-N is made of high-quality INOX (AISI 316). The properties of the material make up this cabinet resistant to hard weather conditions and sea salt. Ideal for installation in marinas, campsides and by the sea.

The cabinet is delivered empty with lock and key. In our store you can find standard equipment for this cabinet:

- Firefighting hose Ø52, length 15 m - 2 pcs.
- Ø52 PVC nozzle with handle - 2 pcs.
- Universal wrench (for couplings + surface hydrant) - 2 pcs. or Option 2: Key for ABC couplings - 2 pcs. + surface hydrant key - 1 pc.
- Hydrant cabinet sticker
