

Texport Fire Recon THL Suit

17142GBB-HI.VIS

The requirements and deployment scenarios for technical assistance, and the associated use of light protective clothing, is increasing significantly. With its brand-new FIRE RECON THL series, TEXPORT® offers the highest technical standard available today and raises the bar in terms of comfort and fit.

The single-layer construction ensures excellent breathability. This is especially important for optimally wicking moisture, such as sweat, away from the body, thereby maintaining the performance capabilities of the wearer. At the same time, this reduces the risk of the body overheating. The option of joining the jacket and trousers into a closed system prevents the penetration of rising heat and other hazardous materials.

The adjustable closures on the trouser hem and cuffs also aid in this, providing the wearer with optimal protection under the special demands providing of technical assistance. Thanks to the special yellow, high-visibility colour, the human silhouette is provided with optimal visibility in dark and inclement weather. Deliberately designed as light clothing, the Fire Recon THL can also be used for fighting forest and vegetation fires. The Fire Recon is also available in a Wildland variant with different colouration.

Specifications

- Certified according to: EN 1149-5:2018 / EN 16689:2017 / EN ISO 15384:2020
- Type: Standard
- Composition: 1-layered
- Out layer: TFX Aramid/Viscose
- Color: Gold/Black Blue/HiVis Yellow
- Size: XS - 4XL

Technical specifications

- Stand-up collar with hanger
- Radio pocket: Length adjustable, with side zipper
- Name tag: Personal identification
- Flashlight loop: Width adjustable
- RFID: Electronic identification system
- Inside pockets: Left and right
- Front pockets: Inserted
- Cuff: Width adjustable
- Upper arm pocket: External, left
- Short-cut jacket: Freedom of movement
- Elbow reinforcement: Abrasion protection
- Ergonomically preshaped sleeves: Increased movability

Inovative outer materials

TFX Aramid/Viscose

The TFX outer fabric is a flame retardant, durable and lightweight fabric developed exclusively for Texport®. TFX offers very good lightfastness, very good abrasion resistance, it's lightweight but almost as strong and has one particularly pleasant wearing comfort as well as keeps its colour after many washes.

TEXPORT® Triple Fabric®

The TEXPORT® Triple Fabric® is a textile reflective stripe that is made from fabric and therefore is extremely breathable and more durable. The reflective, silverstripe material composition, patented by 3M*, adheres very well to the structure of the soft fabric. In addition, the TEXPORT® Triple Fabric® is abraded less severely through wear and washing.
