

TURBO Nozzle 2" BOD2

1033530

Turbo nozzles have the option of full and spray jet. The type of jet is adjusted using a rotating head. A valve ball built into the mechanism allows quick start and switching of the jet type.

Features:

- Unique gun shape handle design
- High extinguishing effect
- Designed to operate in spray and jet mode

Construction material:

- Cast in AK 11 aluminum alloy (AlSi 11), rubber seal, rotary head - plastic.
