

Universal Wrench for ABC Couplings and Overground Hydrant

1033127

It is used to unlock fire couplings C Ø52, B Ø75 and A Ø110, and additionally has the ability to open the overground fire hydrant, which makes this key the best solution when filling the overground hydrant cabinet.

This key can be an integral part of OH-N, SZ-1 and OH-V hydrant cabinets.

Technical specifications

- Weight: approx. 800g
