

Window Punch Tool Holmatro

1002120

Window punch for quick crushing of side windows of a car in case of an emergency, used by firefighters and rescue teams. A simple and safe method of use, because crushing is done with the help of a spring that acts forcefully inside the tool.

When crushing the side window, you pull the spring towards you and release it. The main advantage of this tool is the safety of your hands, because there is no danger of breaking through the glass and injuring yourself.

Durable

Made of anodized aluminum with heat-treated steel head

Safe

The spring mechanism enables controlled breaking of the window

There is no risk of pushing the tool through the glass, and possibly injuring yourself or the victim

Always within arm reach

It can be fastened with a clip
